Academic knowledge in Regulatory Affairs & HR Education
Thinking Global an Local

Professional Summary

Our consultant has more 6 year's experience within the pharmaceutical industry. Her main focus is in the area of Training & Development, where she organizes and develops (mostly in English language) in house or external seminars and workshops (also web-based) concerning Drug & MD Regulatory Affairs and Pharmacovigilance. Additionally she assists in various projects with a main focus on RA (e.g. implementing small variations) and PV like a weekly literature screening of certain drugs. Her RA and PV performance has a main focus on the German-speaking countries.

In earlier stages of her career she has worked in an international and well known consultancy, where she has deepened her experience in Human Resources. There she was involved into various projects concerning Recruiting (via Job pilots and Direct Search), University Marketing and Performance Screening. Since 2012 she operates extra professional as a coach for foreign adults with a main aspect of personal & professional development as well as for their application process. Additionally she gained sales and marketing experience in having a completely commercial education and working in this field for several years.

She graduated as state certified Travel Agent. 2013 she graduated from Ludwig-Maximilian University with a diploma of Business Education and gained an extra Certificate in Human Capital Management. 2015 she gained an academic Certificate of DUW (Steinbeis) University Berlin in "Clinical Research and Regulatory Affairs".
