

Strenghts

Expert in European and Indian Drug Regulatory affairs

Global Approach

Highly Enthusiastic and Great team player

Professional Summary

She is a Pharmacist by training and hold a master degree in Pharmaceutical Medicine. She has almost 3 years of experience in the field of Product Management, Regulatory affairs, Marketing & Sales. During these years of employment, she gained experience in Regulatory Affairs, within a Pharmaceutical company dealing with Phyto and natural health care products situated in India. She successfully established the responsibility of handling responsibility for resolving the query as received from MOH during dossier evaluation, compiling dossiers as per the guidelines of respective countries and reviewing the compiled documents as per the CTD module followed in various countries.

Having great interest in the Regulatory Affairs encouraged her to write my master thesis in this subject. With the best and accurate guidance provided by Dr Axel F. Wenzel she completed her master thesis under him. She got enlightened to the various aspects of Regulatory Affairs as well as the opportunity to explore the regulations of European countries and India to its fullest. She has a good knowledge of Indian Drug Regulatory Affairs.

She is really glad to be associated with Dr. Wenzel and P.S.S.T and she fully dedicated towards the company in whichever way it is possible.
